BILTY - FIRST APP TO MAKE DIGITAL BILTY

Bilty is one of the greatest platforms for managing the transportation business easily. Here we offer Bilty(LR) entries in a predefined format and generate a Bilty(LR) Printout of entered LR. We can also generate the Order Trip by entering required information. In which we also create the Gate Pass and their report you can easily create all entries and generate reports. We also provide the Triplet Printout of Order. In which you can make Order Copy, Consignor Copy, Consignee Copy and Driver Copy. Report provides us with overall performance of transportation business with print, Export to Excel, Save as PDF option.

Here, we offer all steps in only two modules—registration and report. You can enter data for all applicable forms in the registration module. We made it available in clear terms to make it simple to understand. Similar to this, we organized the report's data by date to make it simple for you to understand.

• Entries

Bilty App is straightforward and user-friendly. In the registration module we offer a detailed registration for all entries regarding like Bilty(LR) Entry, and Order Trip, Additionally, we offer Gate Pass Entry. We offer entry of income and expenses as well as payment collection for managing accounts.

• Reports

Bilty offers a variety of reports. Reports outline our general level of performance. We've included a thorough report below to help you manage the data conveniently. We also offer printing in CSV and Excel formats. Additionally, we offer Gate Pass and Goods Movement Reports.
